

# VAC-TEST-SYSTEM

Method of producing low pressure samples for evaluation and analysis.

Type: VT 612 DV

CE

**Automatic operation, rapid and exact with reproducible results.**

Weight : 30 kg

Dimensions : L500 x D442 x H315 mm

Voltage : 230V~50/Hz or 115V~/60Hz

VAC-TEST will determine the potential porosity content of your liquid metal.

The automatic evaluation of the DENSITY-INDEX from the samples gives precise and reproducible information about gas content, oxides and inclusions.
